STAT 496
Homework 1 Problems
due Wed. Sept. 14

4 Problems. Show all work.
Please follow the Lab report directions off the homework web page for R Problems.
Please work in Groups 2 (or 3)! Indicate the leader for each problem.

1. p. 10: 1.2

2. p. 10: 1.3 (Don't forget to answer the question!)

In addition: The problem indicates to repeat several times. You should simulate 4 time
series using 4 different `set.seed()` function values. You can use the 2×2 plotting region
for this problem.

3. p. 10: 1.4 (Don't forget to answer the question!)

In addition: The problem indicates to repeat several times. You should simulate 4 time
series using 4 different `set.seed()` function values. You can use the 2×2 plotting region
for this problem.

4. p. 10: 1.6
